LORENCE RODRIGUEZ

Entry-Level Web Developer | IT Graduate

San Pedro, Laguna, Philippines | 0920 882 6429 | lorencerodriguez.dev@gmail.com | Github | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Entry-level Web Developer and BS Information Technology graduate with hands-on experience developing web-based management systems using React, JavaScript, Node.js, PHP, and MySQL. Experienced in technical support, troubleshooting, and system development through academic projects and internship experience. Passionate about building efficient, user-friendly web applications and continuously learning modern technologies.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Tailwind CSS, Bootstrap, Axios
Backend & Databases: Node.js, Express.js, PHP, MySQL, PostgreSQL, RESTful APIs, API Integration & Testing
Tools & Platforms: GitHub, XAMPP, Visual Studio Code, Postman, AI-Powered Development Tools, Microsoft Office Figma, Canva, CapCut
Other: Computer Troubleshooting, Basic Networking, Technical Support

PROFESSIONAL EXPERIENCE

Information Technology Intern
May 2026 – Present

Cavite State University – Carmona

- Developed a full-stack Library Management System using JavaScript, React.js, Tailwind CSS, Node.js, Express.js, RESTful API and MySQL, featuring user authentication, book management, attendance tracking, room reservations, and account management to streamline manual library operations.
- Troubleshot computer display and Ethernet connectivity issues and performed basic equipment maintenance and performance checks.
- Provided technical support for campus events, including audio equipment, presentations, laptops, and monitors.
- Produced event documentation and multimedia content using Canva and CapCut.

PROJECTS

SecureAttend | Biometric Attendance Management System
Developed a web-based attendance management system with biometric fingerprint integration, implementing employee management, work scheduling, attendance tracking, and automated report generation.
Technologies: JavaScript, React.js, Tailwind CSS, Node.js, MySQL, C#, ZKTeco Biometric Fingerprint

E-Library Management System
Developed a library management platform with modules for managing books and digital resources, processing borrowing transactions, handling reservations, and tracking student attendance using QR codes.
Technologies: JavaScript, React.js, Tailwind CSS, Node.js, MySQL, QR code

Dormitory Management System
Built a centralized dormitory management dashboard with features for room assignments, tenant record management, occupancy monitoring, and real-time room availability tracking.
Technologies: JavaScript, React.js, Tailwind CSS, Node.js, MySQL

Glitter Tails | Pet Grooming Appointment System
Developed a web-based pet grooming appointment system with online booking, appointment scheduling, and reservation management features to streamline the booking process.
Technologies: HTML, CSS, JavaScript, PHP, MySQL, XAMPP

CERTIFICATIONS

JavaScript Essentials 1 2026
Cisco Networking Academy

MaxIT 2025: Code, Manage Protect 2025
ITEC, CVSU

EDUCATION

Bachelor of Science in Information Technology 2023 – 2026
Cavite State University – Carmona
